

2.1. Posts: to update/create a menu or a news (with page builder)

- Select the category list and select “Shaike’s Menus” + click “Filter”
- Go over an article and discover the local menu
- Click “Edit” + scroll down once you are in the detail view to modify or add content using the page builder

The screenshot displays the WordPress admin interface for editing a post titled "Syrian Food". The left sidebar shows the "Posts" menu. The main content area includes the post title, permalink, and a rich text editor. The right sidebar contains "Social Share & Locker Settings", "Publish" status (Published), and "Format" options (Standard, Gallery, Quote, Video, Image, Aside, Audio, Link).

Below the main editor, a detailed view of the page builder section editor is shown. It features a table with columns for "SECTION", "ADD SECTION", "ADD ROW", and "SECTION APPEARANCE". The table contains three rows:

SECTION	ADD SECTION	ADD ROW	SECTION APPEARANCE
Full			
DIVIDER			
MENU #151 TEXT BOX			
DIVIDER			

Orange arrows point to the "EDIT" button for the first row and the "DUPLICATE" button for the third row. A green "+ ADD" button is also visible at the bottom of the table.
